Home Reading and TT Rockstars

We are trying our hardest to improve reading fluency and arithmetic skills whole school. If you could support this at home with home reading and TT Rockstars, it would be very much appreciated.

Making writing exciting!

In Class Three they are writing an explanation text about a lighthouse.

As a school, we are trying incredibly hard to give children a purpose to writing and build in a love for learning across the curriculum. With this in mind, Mrs Altoft's dad kindly made a real life working lighthouse to support the writing. Class three started this on Wednesday and we are excited to see the outcomes. We will share these on twitter, the class blog and the next newsletter. Watch this space!

Growth Mind-set

I was absolutely thrilled to receive this letter on Tuesday. In assembly, we had discussed the benefits of having a growth mind-set and I asked for examples. THANK YOU, Betsy this is a superb example!

Careers!

Mr Crawforth kindly offered to come and work with our KS1 children on Tuesday afternoon.

They learnt about structural engineer work.

They were given a challenge of creating a house for three bears which was 15cm above the ground. The children worked in teams to problem solve and be real-life structural engineers. A HUGE thank you to Mr Crawforth for this opportunity and amazing learning experience given to our KS1 children.

They loved it!

MFL

We are raising the profile of MFL in the school. Mrs Atkinson is teaching French in all KS2 classes, she is doing this to ensure progression of skills - each year they build on the skills taught in the previous year and the sessions are progressive not stand alone.

This week Class Three were learning colours and sang the Rainbow Song.

Class Four were also learning colours and applied this to drawing and labelling their own monster. Class Five wrote their own Les Trois Petits Couchons story.

Love for learning!

Foundation Stage

This week has been all about STEM (science, technology, engineering and maths)

The children have been investigating 'if you are the oldest child, you are the tallest child'. This investigation included measuring and being able to order numbers.

Up and coming: PTFA raffle and competition winners

The PTFA announced the winners from the 'twos-day' event in the Friday assembly and the Easter Raffle will be held on Wednesday 6 April within school assembly.

Brandesburton Primary School

We would love to champion your activities and success outside of school. Please email the school office with your pictures/information. Brands@eastriding.gov.uk

CHALLENGE YOURSELF!

AMAZING ARITHMETIC - In school we have a lot of children who are amazing mathematicians and can apply the strategies learnt. However, knowing their tables is a drawback as these are not as accurate as they could be and leads to inaccuracies. Can we ask you to challenge yourselves to embed the times tables . These will help across the maths curriculum and later in life. Any support in this area would be hugely appreciated!

Amazing news!

What a beautiful photograph: Rosie was over the moon to meet her very tiny new baby cousin, Fifi (Josephine)

Running excellence

It was Beverley running club's award ceremony last week and Mrs McIntyre won most improved pace over the course of the year. Her speed in the races has improved hugely. She has worked hard to get faster on her timings per mile in every race. A huge well done!

Beverley Athletic Club

Running Since 1963

Super star in action:

Max won man of the match at the weekend . His football team, Brandesburton Rangers scored 2 goals against Beverley Avengers .

Nerves of steel!

Archie competed in the first round of the Revo British Youth Motocross Championship. He achieved 7th overall out of 40 riders which we are so proud about. Outstanding!
