4. THE SCHOOL CURRICULUM

We teach the children about health and safety in order to equip them with the skills, knowledge and understanding to enable them to live positive, successful and healthy lives. Teachers take every opportunity to educate children in this regard in the normal school curriculum.

We teach children respect for their bodies, and how to look after themselves. We discuss these issues with the children in Science, PE and through PSHCE lessons.

Our school promotes the spiritual growth and welfare of the children through the RE curriculum and the daily act of collective worship and PSHCE.

5. SCHOOL SECURITY

While it is difficult to make the school site totally secure, we will do all we can to ensure the school is a safe environment for all who work or learn here.

We require all adult visitors to the school who arrive in normal school hours to sign the visitors' book in the reception area, and to wear an identification badge at all times whilst on the school premises.

If any adult working in the school has suspicions that a person may be trespassing on the school site, they must inform the Headteacher immediately. The Headteacher will warn any intruder that they must leave the site straight away. If the Headteacher has any concerns that an intruder may cause harm to anyone on the school site, he/she will contact the police.

6. WELL BEING MANAGEMENT

The Headteacher has an 'open door' policy to discuss ways in which stress can be managed. Referrals may be made to Occupational Health. Staff are also encouraged to contact their union helplines.

7. LONE WORKING

This covers situations in which staff find themselves alone on the site, working without supervision. This would normally be the caretaker, but may apply to staff working out-of-hours on the school premises after the caretaker has left. Staff have a responsibility to take reasonable care of themselves. Staff should be capable of responding

correctly to emergency situations and should have access to first aid facilities for treating minor injuries. All health and safety procedures should be adhered to when lone working and no risks should be taken. Any staff working in the building should be aware of the risks and ensure their own safety. Windows and doors should be secure. The caretaker should be made aware of the fact they are on site and when they expect to leave. Staff should assess the risks of allowing another person on to the site without the caretaker present. They should be aware of the nearest and safest exit in case of an emergency. See Code of Practice on Lone Working in Headteacher's office.

8. ASBESTOS

An asbestos report is kept in the school office. This is made available to all contractors on site.

9. EVACUATION OF THE BUILDING
